JOYFUL EASTER.

The Custom of Giving Easter Presents is Getting More Popular Every Year and, as Usual, the

We not only have the Old Hare, the Little Chick, the Same Egg, but hundreds of other Novelties. A great many of them we went to Japan for, and consequently they have a very cute Japanese appearance. The price is just about one half of what you will pay elsewhere. Take a peep at our window on the left as you enter.

What could be prettier as an Easter Souvenir than a piece of Sparkling Glass? What could suggest the occasion any better than its prismatic beauty? We have the largest collection we have ever shown, and especially in small pieces. In Art Pieces we have all the new designs in Worcester, Dresden, Vellum, Frank, Joseph, &c. Drop in and take a peep. You will be delighted at the many new novelties.

THE NEW PERFECTION HARD-WOOD REFRIGERATOR

Constructed upon purely scientific principles. Preserves the original flavor of each kind of food. Free from the commingled odors formed in other Refrigerators. Pure, Dry, Cold air. Economical in the use of ice. Over 200 in use in Richmond.

We claim and can prove that we have the only Refrigerator made. It is not made of imperfect or cheap lumber and then covered with paint to hide the defects, but of kiln-dried Ash with Cherry Mouldings. The construction of our Ice-Rack alone will save you many pounds of ice.
